

## AW 32 | Hydraulic and compressor fluid

## **Property**

- very high resistance to wear, corrosion and foaming
- constant viscosity and excellent oxidation stability (ageing stability)
- good water and air separation capacity
- excellent filterability
- free of zinc and ash

## **Application area**

- for compressors with compression temperatures up to 220°C
- suitable for hydraulic systems and compressors

## Note

- Technical data subject to change without notice. Please observe the vehicle or machine manufacturer's directions. Please refer to the safety data sheet for further information.
