

## Fuel-Injector Cleaner & Water Remover | Fuel-Injector Cleaner & Water Remover

### Property

- keeps fuel systems free of deposits and ensures absolutely clean valve faces and seats
- regular use (every 15,000 km) conserves the power of new engines and improves the engine performance of used vehicles
- removes condensation and prevents corrosion in the fuel system

### Application area

- suitable for petrol and diesel engines with and without turbo, catalytic converters or particle filters (GPF/DPF)
- suitable for cars, trucks, motorcycles and boats
- suitable for 4-stroke petrol and diesel motor injection systems

### Dosage

- 1 x 375ml bottle is adequate for 40-60 litres of fuel. Add bottle contents to the fuel tank before filling.
